POLARIS

FEAR NO FLOODPLAIN

WARNING: Polaris off-road vehicles can be hazardous to operate and are not intended for on-road use. Driver must be at least 16 years old with a valid driver's license to operate. ALL riders should always wear helmets, eye protection and protective clothing. Always use seat belts and cab nets or doors (as equipped). Never engage in stunt driving, and avoid excessive speeds and sharp turns. Riding and alcohol/drugs don't mix. All riders should take a safety training course. Call 800-342-3764 for additional information. Check local laws before riding on trails. ©2021 Polaris Industries Inc.

Duck hunting conditions aren't ideal, but it's critical to get your gear out before the sun comes up. That's why our vehicles are equipped with the industry's fastest-engaging AWD to make quick work of mucky backwaters, windshields and roofs to make cold, wet mornings more manageable and ample storage so you have plenty of room for your blind cover, decoys and dog. Elevate your hunt with accessories like mud-rated tires, hunt-specific camo and winches to help clear the way.

LEGENDARY

LEAD-LIKE PERFORMANCE
FROM OUR DOOR TO YOURS.

"SWING BY OUR BOOTH IN THE
SHOOTING VILLAGE
AND SEE WHAT ALL THE FUSS IS ABOUT".

Steel shells have always come with hidden costs. Cripples. Lost time. Missed opportunities. Not so with BOSS. Heavier than steel, this is lead-like performance that hits harder, penetrates deeper and patterns tighter—all at direct-to-consumer pricing that cuts out the box-store retail markups. Cases ship free from our door to yours. Available in best quality 10, 12, 16, 20, 28 and .410 bore.

Proudly 2A and freely made in the USA. ★

PHONE (269) 465-3631

BOSS SHOTSHELLS AND THE CRIPPLING REALITY

The Bad: Too many birds are lost to crippling every single year in the U.S. alone. Although that number is tough to pin down, one thing is for certain and we can all agree on, it's far-far too many.

The Ugly: As waterfowlers and wingshooters go, that's 100 percent on us.

The Good?

Together, we can drastically reduce that number — a huge nugget of hope we all should celebrate.

In a time when it seems like our hunting heritage is always under siege, imagine if we, as a community, commit to reducing that awful number of cripples. What would reducing it by even half look like? For one, it puts a significant number of more birds on the nesting grounds each year. Now imagine what increased breeding success could mean. Maybe we'd get more than a single pintail and a few more scaup per day. Maybe mallard limits in certain regions could follow. Maybe the anti-hunting crowd will ease up a little — but we're not holding our breath. In the end, more birds for everyone would be a fantastic thing for our hunts, our legacies and our hopes for future generations. All we have to do is do our part and that starts with doing what's right.

But how?

By changing the narrative. Rethink not only the way you're hunting, but the tools by which you hunt. Start with a better shell than tired old steel, and we're not just saying that because we're a shell company. We're saying this because it's the truth, evidenced by the massive decrease in birds dying from lead poisoning after lead became outlawed. That's proof the actions of the waterfowling community can make a huge difference without the government stepping in and telling us how to hunt. After all, sportsman were the original conservationists.

In a way, voluntarily walking away from lead was the right thing to do. But it came with a new set of consequences. Whereas we were poisoning less birds using non-toxic steel, the issue of crippling birds became a much bigger deal. Steel, no matter what size shot or the absurd speed it claims to reach, just doesn't hit or penetrate nearly as well. And while the advent of heavier, denser non-toxic shot options were great, they cost an arm and a leg, putting that level of lethality out of reach for most hunters. For years, we've had a new reality: We're poisoning less but now we're crippling more.

With copper-plated BOSS, we can change that reality. Nearly as heavy as lead and safe in classic barrels, it's like the good-old days are back in both premium performance and value.

At BOSS, we only sell direct at BOSSshotshells.com. That means there's no paying retail middleman markups. Just premium shells shipped from our door to yours. For a few dimes more per squeeze, copper-plated BOSS kills like lead without shredding your wallet out in the process. That's a win-win for your budget and the birds.

With BOSS, start by getting honest with yourself about how you like to take birds. Paddles down and in the decoys? Or pass shooting at 40-plus yards? Most folks start with our 12 gauge 2 3/4" Shorty #5, easily our most versatile load. Once you've thought long and hard about your common shooting scenario, screw in a choke. Most go with an IM or a full, depending on shooting distance.

Now, actually put it on paper. That's real-deal woodsmanship and we'd like to see the waterfowling community get way back into it. Pattern your shotgun and you'll know exactly what it's capable of at your chosen distance. If you find a few holes in your pattern, choke it down. If it's too tight, open it up. Experiment and really perfect your pattern. You'll shoot less and kill more, guaranteed. Only after you've patterned should you put copper-plated BOSS on the birds. That's when you can start fine-tuning shell and shot size, but again most start with the BOSS Shorty.

Next — and this one's key — No Your Shot. We're not just talking about saying no to skybusting. That's amateur hour. We're asking that you pull off a bird if you know the shot is pushing your effective range. More birds will come, and you'll reduce your number of cripples even more.

Last, we'd ask you marinate on what you've just read. Think about that number and how small changes in our collective thinking can really make a big difference for the birds. Consider joining a conservation org. like DU. And as always, don't be afraid to reach out to us for help on either social media or through our website. The BOSSmen are here for you and the birds.

EVEREST GIVES BACK WITH HELP FROM CALIBER MEMBERS

When Everest.com launched in 2020 during a pandemic, one of the first orders of business was to give back to those organizations who were feeling the brunt of tightened pocketbooks. Everest Gives Back was born out of need and continues strong with shoppers and the Everest community giving to conservation groups, veteran nonprofit organizations, and more. In fact, Everest's Caliber members — those members who pay an annual fee for access to content and pricing specials not available to the general public — are helping the most with Everest Gives Back program. A portion of each Caliber membership is driven directly back into helping programs and organizations the community loves and supports.

"We are committed to giving back to the communities and organizations in which we exist," said Bill Voss, CEO/Founder of Everest. "Everest actively invests in philanthropic programs and rallies around charitable work and causes important to the space and truly mean something to the industry in which we live and breathe."

Everest Gives Back utilizes several programs to fund partner organizations:

- At checkout, customers are encouraged to select their organization of choice and round up their total order to the nearest dollar
- Also, at checkout, customers can choose to add \$1 to their order for conservation efforts
- A portion of all Caliber Membership revenue is transferred to Everest Gives Back and its partners
- A portion of net revenue goes to Everest Gives Back

The inaugural group of Everest Gives Back recipients include Delta Waterfowl Foundation, Mule Deer Foundation, NSSF's Project ChildSafe, Congressional Sportsmen's Foundation, Chris Kyle Frog Foundation and St. Jude Children's Research Hospital.

DUCKS UNLIMITED EXPO

PRESENTED BY
PURINA PRO PLAN,
EVERYTHING OUTDOORS

With interactive villages for shooting, fishing, archery, conservation, dogs, biking, off-road vehicles, and music, outdoor enthusiasts of all ages will have a chance to see, try, and buy the latest and greatest outdoor gear. The Ducks Unlimited Expo (DUX), presented by Purina Pro Plan, is your one stop for everything outdoors!

The inaugural Ducks Unlimited Expo presented by Purina Pro Plan will take place on Friday June 25, Saturday June 26, and Sunday June 27 at Texas Motor Speedway, in Fort Worth. It will be history making for Ducks Unlimited! This colossal outdoor event is filled with hands-on demonstrations, seminars, activities, and exhibitions of industry related products. Attendees of DUX will test their skills in a multitude of villages, where novice to experienced sportsman can try the latest products and receive coaching from industry leaders and professionals.

Purina Pro Plan will have daily seminars and guidance in the Dog Village from industry leaders, including Dokken's Oakridge Kennels, Wildrose Kennels, The Quack Pack, Covey Find Kennels, and many more. The Dog Village will also host Ultimate Air Dog and have samples of Purina Pro Plan.

Saturday, June 26th is packed with activities, starting with the BOSS Shotshells Ducks Unlimited Regional Sanctioned Calling Contest, which features a first-place prize of \$5,000 - the largest prize for any sanctioned contest across the country this year. The Ducks Unlimited Regional will be followed by the Gulf Coast Regional Sanctioned Calling Contest. Both contests are qualifiers for the World Duck Calling Championship in Stuttgart, Arkansas. The DUX Championship Series will

follow Saturday's sanctioned contests with individual and team Mallard Meat calling. On Sunday, June 27th contests will continue with individual, and team contests for Specklebelly and Canada Goose calling.

Saturday night kicks off with Duck Jam, an outdoor concert sponsored by First National Bank of Omaha. Duck Jam features certified multi-platinum selling artist, Gary Allan ("Watching Airplanes," "Every Storm (Runs Out of Rain)," "Best I Ever Had"); multi-platinum hit-maker, Jordan Davis ("Singles You Up," "Slow Dance in a Parking Lot," "Almost Maybes"); chart-topper Travis Denning ("After A Few," "ABBY"); and critically acclaimed rising star, Priscilla Block ("Just About Over You," "Wish You Were the Whiskey"). In addition to Saturday night's Duck Jam, the DUX music village will feature several artists from Universal Music Group Nashville throughout the weekend.

DUX will showcase trick shooter demonstrations throughout the weekend from The Gould Brothers (Friday, June 25 only) and Texas native, Travis Mears (Saturday June 26 and Sunday, June 27). DUX also offers hands-on firearms testing from leading manufactures, off road 4x4 and ATV ride and drives, and special appearances from outdoor personalities, Michael Waddell, and Addison Edmonds.

The Expo is an event the whole family will enjoy. Our conservation partner, Texas Parks and Wildlife Department, has helped provide kid-friendly activities during the entire expo, including a catch and release pond, waterfowl identification, shooting activities, coloring pages, tattoos, and more.

Hope to see you there!

WHAT: The Ducks Unlimited Expo presented by Purina Pro Plan

WHERE: Texas Motor Speedway, 3545 Lone Star Cir, Fort Worth, TX 76177

DATES/TIMES: Friday, June 25, noon - 7 p.m.; Saturday, June 26, 9:00 a.m. - 6:00 p.m. (Duck Jam starts at 6:30 p.m.); Sunday, June 27, 9:00 a.m. - 5:00 p.m.

TICKETS: DUX tickets are on sale now, at www.duckexpo.com/tickets and are \$10/adult one-day, \$25/adult three-day, kids 12 and under are free (available at the gate only), \$300/all age VIP. BERETTA
500 YEARS. ONE PASSION.

DOMINATE THE SKIES WITH SUPER BLACK EAGLE 3

Benelli forever changed the expectations of waterfowl hunters with the introduction of the Super Black Eagle shotgun. Now, the most popular waterfowling shotgun is available in 3-inch versions in 12 and 20 gauges — a little lighter but just as effective and enjoyable to shoot.

“We’ve applied all of the Super Black Eagle 3 enhanced updates and ergonomics to 3-inch 20-gauge and 12-gauge models for 2021,” said Tim Joseph, VP of Brand Marketing for Benelli USA. “We know the 20-gauge in particular will be a welcome addition for hunters who want the feature sets of a SBE3 but prefer a lighter gauge.”

At the heart of the SBE3 is the ultra-reliable inertia-driven action, which is centered around an Easy-Locking Bolt System — an enhanced breech-closing system that eliminates the possibility for a shooter-induced stoppage when trying to softly close the bolt or when the shotgun is treated roughly in the blind. And the new SBE3 is designed for easier operation with gloved and/or cold hands. The oversized bolt handle, oversized bolt release, oversized safety and redesigned magazine cap along with the enlarged load port make for easier operation in cold conditions.

The Easy Fitting System of the SBE3 includes a shim kit that allows for up to eight different cast-and-drop configurations. The stock and forend design and rounded trigger give the SBE3 a smoother feel and make the shotgun easier to shoulder and swing on passing targets.

The design of the Super Black Eagle 3 reduces felt recoil with its third generation ComforTech 3 stock and Combtech cheek pad.

The new 3-inch SBE3 shotguns are available in Black synthetic, Realtree MAX-5, GORE OPTIFADE Timber and Mossy Oak Bottomland camo patterns in both the 12- and 20-gauge chamberings.

Features:

Gauge: 12 and 20
Chambering: 2-3/4 and 3 inch
Barrel Lengths: 26 and 28 inches
Overall Length: 47.50 to 49.50 inches
Weight: 5.8 to 6.9 pounds
Sights: Fiber-optic red-bar front sight
Length of Pull: 14-3/8 inches
Drop at Heel: 2-1/8 inches
Drop at Comb: 1-1/2 inches
MSRP: \$1,699 to \$1,799.

RE-DISCOVER THE CENTRAL TEXAS HILL COUNTRY!

Have you ever wished you could climb in your truck and leave the hectic life and just get away for a few days? Well then, you need to consider the Hill Country in Central Texas. It seems when Texas was created, God put the best part right smack dab in the middle of it all so everyone in the state would have about the same distance to travel in order to make it fair. The diversity and scenic beauty is beyond description and those of us who have lived here for our entire life have been especially blessed and we like to see the jaw-dropping response of those who visit for their first time.

San Saba County is located right in the center of Texas and the small town of San Saba is the county seat. I have heard it said that San Saba County has the most miles of live water of any county in the state and that's saying a lot, because there are 254 counties in Texas.

Gene Stewart has been actively listing and selling land in San Saba County and all of Central Texas since 1988. Gene and his wife, Sylvia want to invite and welcome you to visit us at San Saba Realty, located in this great little destination where the people are friendly and the wildlife (meaning the deer, turkeys, fishing, etc.) are plentiful.

We can't wait to meet you!

RENEGAUGE WATERFOWL

The American made Savage Renegade will change the way you think about semi-automatic shotguns. The Renegade can handle the hottest high-brass and the mildest low-recoil shells with the same dependability. The patented D.R.I.V. (Dual Regulating Inline Valve) gas system ensures excess gas vents before it drives the bolt, resulting in consistent ejection, less felt recoil, and a lightning fast cyclic rate for dependably fast split times. The Renegade has been designed to fit almost any shooter. Everything from length-of-pull to comb height and drop at the heel can be adjusted to fit.

The Ducks Unlimited Expo (DUX) is a sportsman's paradise to see, try and buy the latest and greatest that the outdoor industry has to offer.

In the DUX Shooting Village attendees will have the opportunity to test and purchase firearms from leading manufacturers.

SHOOTING VILLAGE FAQs

What Gun Ranges are at DUX?

DUX features a Shotgun range, a Rifle & Pistol 100 Yard Range and a Rifle 300 Yard Range. Besides shooting lanes designated for each firearm factory on the Ranges, DUX also features General Lanes where you can flexibly shoot a mix of most brands of firearms in one lane.

Can I purchase a firearm while at DUX?

Firearms will be available for purchase at DUX. Firearm Factories are attending and each factory hosts a shooting tent on the range with firearms on display and available for live shooting. If you choose to purchase a firearm your order will be placed and processed with our DUX FFL dealer Reeds Family Outdoor Outfitters. Reeds will then ship your firearm, with free shipping, after the event to your local FFL for final paperwork and background check. You will not leave DUX with a purchased firearm, as no firearms will be transferred on-site at DUX.

What does it mean “Buy at DUX & Earn Bucks for the Ducks”?

A portion of all purchases of firearms and ammunition at DUX is donated to Ducks Unlimited. Five to ten percent of all purchase amounts made will be provided to DU in a payment, net of sales tax, credit card and delivery fees.

Is there a cost to shoot at DUX?

There is a minimal fee of \$5 per shooting ticket, which is good for any type of ammo needed to shoot the Demo Guns at the range. Each ticket is redeemed for 5 shots at any shooting booth on the shotgun and/or rifle/pistol range. You can purchase one or multiple tickets at the shooting ticket tent at the entrance of the shooting village.

Are there age restrictions for shooting?

Yes, Archery, BB, pellet, and air rifle all have no age requirements. Rifle and shotgun have a restriction of 12 & over, while pistol is restricted to those 21 & over.

Will eye and ear protection be provided?

Eye and ear protection will be provided and required by all shooters.

Do I need to complete a waiver to participate in shooting?

Yes, all attendees who would like to participate in any activity at DUX will need to complete a waiver each day. Visit any waiver tent to complete your waiver.

Insider Tip: Use the QR Code on this page to fill out your waiver on-line before you arrive at DUX.

Can I purchase ammunition at DUX?

There are multiple manufacturers that will be selling ammunition at DUX. Yes, the ammunition is in-stock at DUX and you can pick up the ammo on-site, as you leave DUX. There are daily limitations on how many boxes each person can buy per style of ammo.

FEEL THE DIFFERENCE WITH PLANTATION SERIES

Plantation Series Over & Under and Side-by-Side shotguns from Dickinson Arms provide waterfowl and wingshooting enthusiasts with premium quality, distinctive good looks and professional-grade performance in a gun that is surprisingly affordable.

Both versions come in 12, 20, 16, 28 gauge and .410 bore to cover a wide range of shooters and applications. Plantation Series shotguns feature precision trigger plate mechanisms with cosmetic side plates and receivers that are hand engraved with attractive English scroll. Each receiver is finished with true bone-charcoal color case hardening that makes each gun an individual work of art.

Quality construction and components are hallmarks of the Plantation Series, starting with premium Turkish Walnut stocks and for-ends with 24-lines-per-inch hand checkering and a hand-rubbed oil finish. Each receiver is machined from a solid billet of moly-chrome steel for the ultimate in precision and durability. Dickinson's construction techniques combine the latest modern CNC technology and CNC-machined lever mainsprings with old-world craftsmanship and attention to detail.

Wood and metal components are hand finished and hand fitted to create a gun that looks as good as it performs. Whether shooters prefer a side-by-side or over & under, they can choose from 24", 26", 28" or 30" barrel lengths to suit a wide variety of shooting styles. These guns can accommodate fixed or thin-wall chokes for different shooting applications in the field or on the range. Waterfowl enthusiasts can also select Beavertail or Standard for-end designs to suit their preference. Special order upgrades to Grade 3/4/5 walnut stocks are also available.

Dickinson Plantation Series shotguns carry an MSRP of \$2,999 — a great value for a gun of this quality and reputation. Dickinson's Plantation Series has received rave reviews from editors at leading publications including Sporting Classics, Shooting Sportsman, American Waterfowler and American Shooting Journal, where these elegant Turkish-crafted shotguns were favorably compared with brands and models costing many times more.

PERFORMANCE YOU CAN BANK ON.

Vehicle shown with options.

Kevin Van Dam
Team Toyota Angler

THE POWERFUL TOYOTA TUNDRA – KVD'S TRUCK OF CHOICE. One of the greatest bass fishermen of all time demands peak performance from himself and his rig. The Toyota Tundra consistently earns Kevin VanDam's praise and trust with a 5.7L V8, up to 10,200 towing capacity, and massive braking power. The 2018 Bass Fishing Hall of Famer puts it bluntly, "It's the best tow-vehicle I've ever owned." Find out more at Toyota.com/Tundra.

Vehicle shown with options. Vehicle shown is a special project car, modified with non-genuine Toyota parts and accessories. Modifications with these non-genuine parts or accessories will void the factory warranty, may negatively impact vehicle performance and safety, and may not be street legal. Before towing, confirm your vehicle and trailer are compatible, hooked up, loaded properly and that you have any necessary additional equipment. Do not exceed any Weight Ratings and follow all instructions in your Owner's Manual. The maximum you can tow depends on base curb weight plus the total weight of any cargo, occupants, and added vehicle equipment. "Added vehicle equipment" includes additional standard / optional equipment and accessories added by the manufacturer, dealers, and / or vehicle owners. The only way to be certain of your vehicle's curb weight is to weigh your vehicle without passengers or cargo. Calculated with new SAE J2807 method. Vehicle loaned to paid talent. Trademarks shown are those of their respective owners. *Assembled in Texas with U.S. and globally sourced parts. ©2021 Toyota Motor Sales, U.S.A. Inc.

BROWNING MAXUS II

A monster in the marsh. The Maxus II builds on the success of the original, and adds a new look and more features that improve shooting comfort, performance and speed without sacrificing an ounce of the proven reliability the Maxus has been lauded for. Hunting seasons are short, make every shot count with the best gas-operated autoloading shotgun you can get a grip on. The Maxus II Wicked Wing has a lot to offer a shotgunner: Reliability, superior shooting comfort, a great trigger, intuitive handling and appearance. *This is one shotgun that looks as good as it performs.*

Carroll's Gun Shop welcomes you to visit their store to see the updated Maxus II in various configurations before your next duck or goose hunt.
