NORTH DAKOTA NAWCA PROJECTS

$81,800,069	$115,846,724	102	1,852,774
NAWCA GRANT AMOUNT	TOTAL PARTNER CONTRIBUTION	NUMBER OF PROJECTS	TOTAL ACRES

North Dakota has 102 NAWCA projects either completed or underway. These projects have conserved 1,852,774 acres of wildlife habitat. NAWCA funding of more than $81.8 million stimulated partner contributions of over $115.8 million. These figures do not include multi-state projects.

MISSOURI COTEAU WORKING WETLANDS PROJECT III

This project was specifically designed to bridge the gap between agriculture and conservation through programs that are economically profitable and sustainable for North Dakota farmers and ranchers, yet also beneficial to North American waterfowl habitat in the highest priority region of the prairies. The project area consists of the critically important Missouri Coteau of the Prairie Pothole and will include protection, enhancement, and restoration of a total of 17,774 acres. Wetland habitats in the Missouri Coteau are diverse wetlands and are critically important migratory and breeding habitats for many waterfowl and wetland-dependent species. Protection of native prairie surrounding these critically important prairie wetland habitats will provide essential nesting habitat for waterfowl and other species, and will also minimize the influx of sediments, herbicides, and pesticides into these wetlands. There are 6,100 acres of the project enrolled in the North Dakota Game and Fish Department Habitat Private Land Open to Sportsmen program, providing open access for recreation during the hunting season.

	PROJECT NAME	GRANT AMOUNT	PARTNER CONTRIBUTION	TOTAL INVESTMENT	TOTAL ACRES
