PLAYA WETLANDS

THE PRINCIPAL SOURCE OF AQUIFER RECHARGE

Kansas playas provide habitat for waterfowl and clean water for livestock. Playas also benefit people by filtering water and recharging the Ogallala Aquifer. Through workshops Ducks Unlimited has developed with partners, such as the Playas Lake Joint Venture, Kansas ranchers have learned how conserving their playas can enhance their operations.

Ducks Unlimited is working across the region to protect and restore these important wetlands so they can function properly and maximize groundwater recharge. Though playas alone cannot solve our regional water demands, their conservation will be a critical component of the solution.

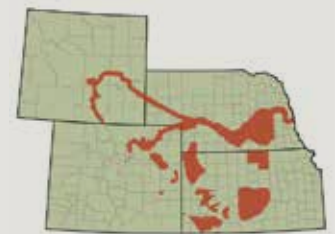

For more info about the Playas, contact: Abe Lollar, Biologist - Kansas • (620) 214-2693 or alollar@ducks.org

HEARTLAND HERITAGE AND HABITAT INITIATIVE

Through the Heartland Heritage and Habitat Initiative, Ducks Unlimited is enhancing, restoring and protecting critical migration habitat throughout Kansas. These shallow and seasonal wetlands provide an oasis for migrating waterfowl, other wetland birds and numerous non-migratory species. These conserved lands also help preserve our outdoor traditions and hunting heritage.

■ CONSERVATION PRIORITY AREA

BRING BACK THE BOTTOMS

HELP RESTORE CHEYENNE BOTTOMS*

\$3,000,000

Adds almost \$3 million to Kansas economy. Some 60,000 people visit each year. Hunters, birders, outdoors people come from across the country.

350 & 40

Attracts:

- 350 bird species, 40 migrating species
- Half of North America's shorebirds
- Whooping cranes, other critical/endangered species

20,000

The 20,000 acres of shallow wetlands and grass provide ideal habitat for millions of migrating birds annually as they rest and feed.

The **Bottoms** needs our help as its **ability to attract and support birds has declined.**

Since the last major renovation in the 1990s, the basin has filled with silt, compromising water control structures.

KDWPT will repair and replace infrastructure, remove silt and make other improvements. Ducks Unlimited has pledged to raise \$300,000 in private dollars to support this large-scale restoration.

*Cheyenne Bottoms is a 31-square mile public wildlife area owned by the Kansas Department of Wildlife, Parks and Tourism. Its the largest wetland in the interior U.S.

PLEDGE YOUR SUPPORT TO HELP **BRING BACK THE BOTTOMS**

DU must raise \$300,000 in private dollars to help this vital restoration.
