<b>\$14,737,627</b>	<b>\$58,587,539</b>	<b>24</b>	<b>58,332</b>
NAWCA GRANT AMOUNT	TOTAL PARTNER CONTRIBUTION	NUMBER OF PROJECTS	TOTAL ACRES

*Maryland has 24 NAWCA projects either completed or underway. These projects have conserved 58,332 acres of wildlife habitat. NAWCA funding of more than \$14.7 million stimulated partner contributions of over \$58.5 million. These figures do not include multi-state projects.*

## CHESAPEAKE RIVERS CONSERVATION PHASE I

The Chesapeake Bay is the largest estuary in the United States and stages or winters millions of waterfowl and other wetland dependent migratory birds every year. This project will contribute to a long-term effort to protect and restore wetland habitat in the Choptank, Nanticoke, Wicomico and Pocomoke River watersheds, four of the most pristine watersheds of the Chesapeake Bay in Maryland.

These watersheds are renowned for verdant tidal and nontidal wetland complexes that support plant and wildlife biological diversity, including a significant number of rare species. The lower reaches of these rivers encompass three waterfowl focus areas for the Atlantic Coast Joint Venture (ACJV), primarily due to the large expanses of coastal marshes and submerged aquatic vegetation beds that provide excellent shelter and forage for migrating waterfowl such as American black duck and several other species.

Phase I will add 1,400 acres of permanently protected wetland/upland migratory bird habitat to the Maryland's State Forest System and place conservation easements on another 1,205 acres. A total of 1,976 acres, or 76 percent, of the project area are declining forested, emergent and scrub-shrub wetland habitats. Species that will benefit include American black duck, northern pintail, wood duck and mallard. The wetland-dependent American woodcock will also directly benefit from the project. Specific neotropical migrants that will benefit from protected habitat include prothonotary warblers, Kentucky warblers, wood thrush and worm-eating warblers

	PROJECT NAME	GRANT AMOUNT	PARTNER CONTRIBUTION	TOTAL INVESTMENT	TOTAL ACRES
1.	**BLACKWATER FIELD 49 & 50 WETLAND RESTORATION	\$100,000	\$241,137	\$341,137	139
