\$46,888,131 **\$176,030,074** **135** **235,628**

NAWCA GRANT AMOUNT TOTAL PARTNER CONTRIBUTION NUMBER OF PROJECTS TOTAL ACRES

Minnesota has 135 NAWCA projects either completed or underway. These projects have conserved 235,628 acres of wildlife habitat. NAWCA funding of more than \$46.8 million stimulated partner contributions of over \$176 million. These figures do not include multi-state projects.

BORDER PRAIRIE WETLANDS V

This project builds on habitat protection and enhancement efforts and is aimed at accelerating the protection and enhancement of prairie wetlands in the Prairie Pothole Region in Minnesota. Long-standing and new partners have come together to purchase, restore and enhance 1,656.6-acres of habitat crucial to waterfowl and other wildlife. Fee-title acquisitions of Waterfowl Production Areas and Wildlife Management Areas focus on strategic investments in habitat that build on existing wetland complexes.

Partners will accelerate wetland and upland conservation by acquiring 825 acres in fee title and 138.6 acres under perpetual easement. The proposal will provide for the enhancement of four priority shallow lakes totaling 693 acres. All habitat on lands acquired in fee-title will be restored using other funding sources and in collaboration with partners. Partners are working to add a wetland restoration biologist in the project area to assist with the added workload.
