

NORTH AMERICAN WETLANDS CONSERVATION ACT: A COMPREHENSIVE HISTORY

Since its inception in 1989, NAWCA grants totaling more than \$1.6 billion have leveraged \$4.68 billion in contributions from partners. These contributions have far exceeded match requirements, allowing for successful implementation of wetland habitat restoration projects across North America. Federal and non-federal funding has resulted in the conservation of more than 29.8 million acres of wetlands and associated uplands across North America. The abundance of wildlife, including many species of waterfowl, other migratory birds, fish and mammals supported by wetlands, translates into multi-billion dollar activities for Americans who enjoy hunting, fishing, wildlife viewing and photography.

1:1 NAWCA REQUIRES A 1:1 MATCH, BUT PARTNERS AT THE LOCAL LEVEL OFTEN DOUBLE OR TRIPLE FEDERAL FUNDS

Through the history of the program, NAWCA has provided...

2,833

29.8 MILLION

ACRES OF HABITAT IMPACTED USING
NAWCA FUNDING

6,000

PARTNERS CONTRIBUTE OVER \$4.6
BILLION IN MATCHED FUNDS

...in all 50 states

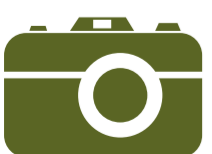

NAWCA conserves and restores wetlands to increase water quantity and quality.

Wetlands store water and recharge aquifers, securing future water supplies and reducing soil erosion in the event of floods. Wetlands also preserve water quality by removing phosphates, nitrogen and pesticides.

NAWCA funds have created on average, nearly 7,500 new jobs annually in the US.¹

These jobs generate more than \$200 million in worker earnings each year. NAWCA has benefited the national economy by translating \$1.3 billion in federal funds into more than \$5 billion in on-the-ground conservation and economic activity in North America.

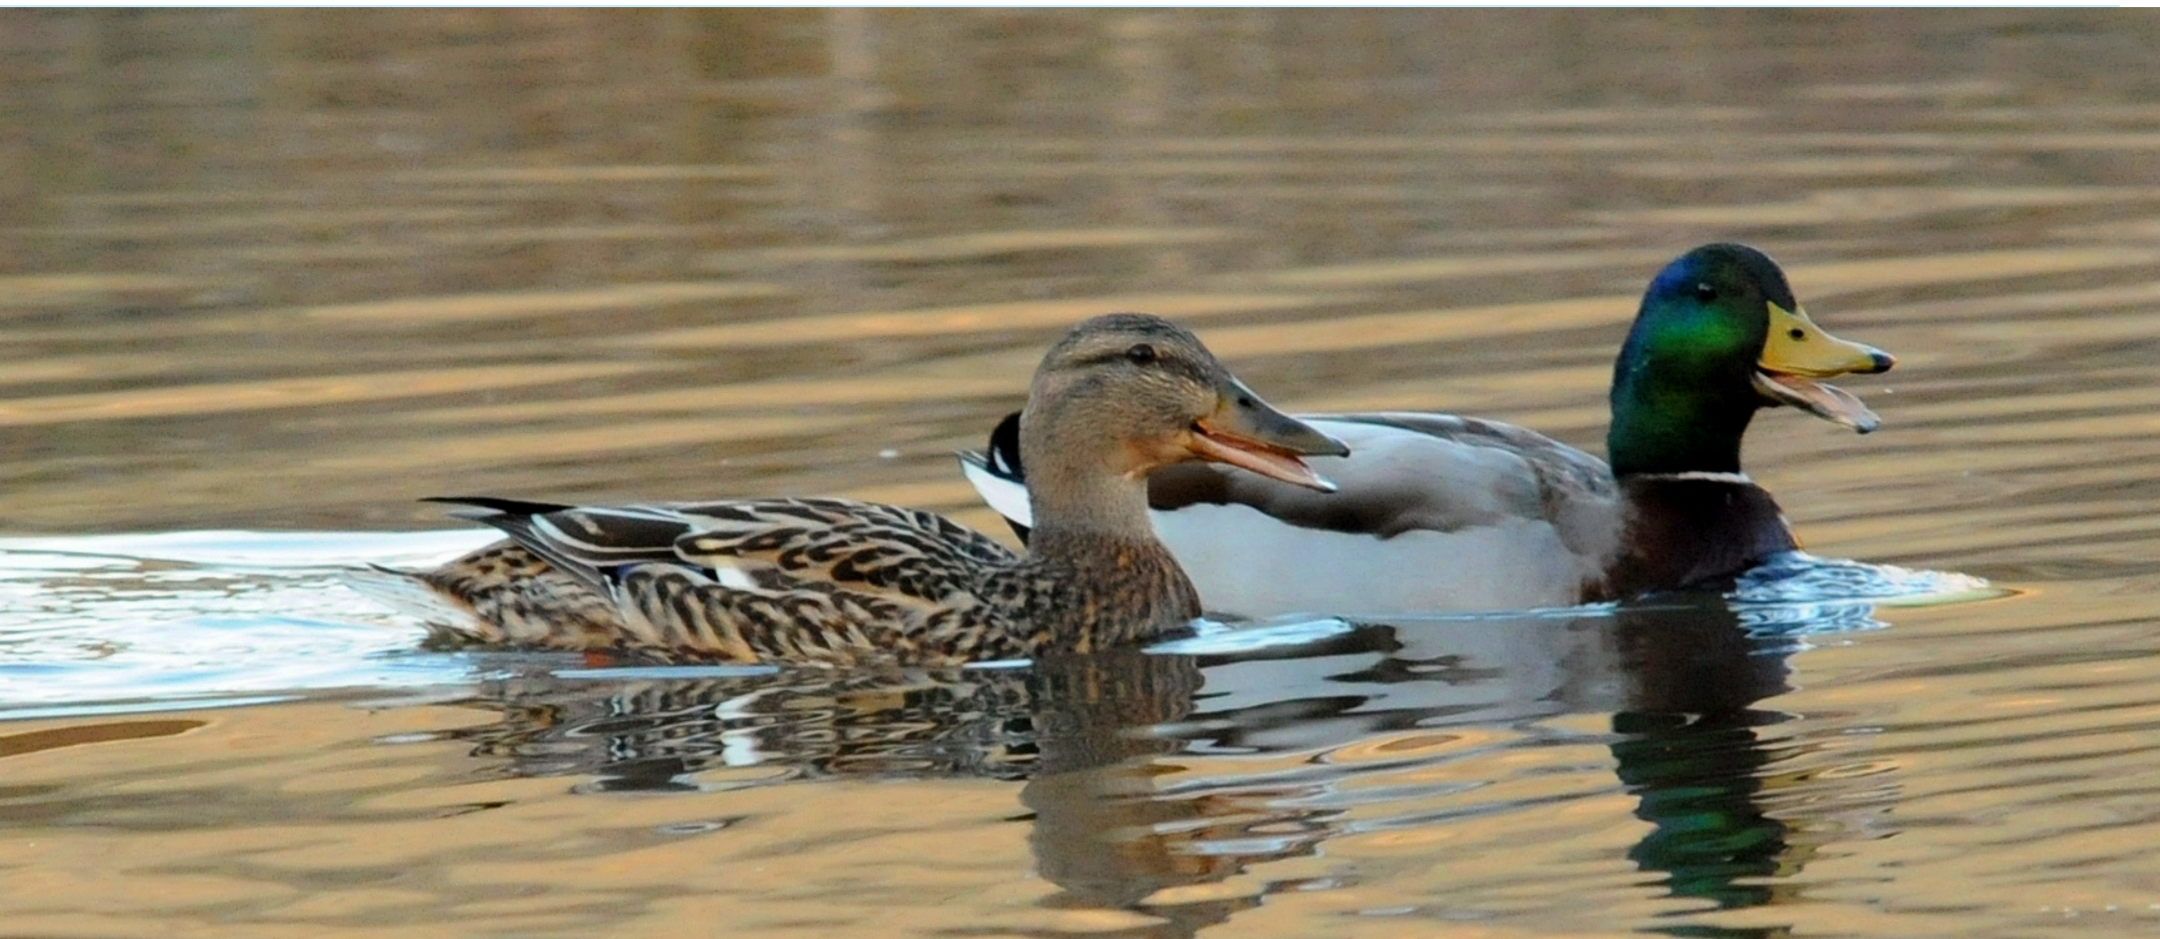

NAWCA expands recreational opportunities for people such as hunting, fishing, wildlife viewing and photography.

These recreational activities are a multi-billion dollar industry. On average, Americans spend \$887 billion on outdoor recreation and the recreation industry directly supports over 7.6 million jobs²

1. "A Programmatic Evaluation of the North American Wetlands Conservation Act (NAWCA) in the United States and Canada" Final Report. Conducted for the United States Fish and Wildlife Service by Responsive Management, September 2002

2. "The Outdoor Recreation Economy" Conducted for Outdoor Industry Association by Southwick Associates, Inc. 2017

FY2018 OVERVIEW

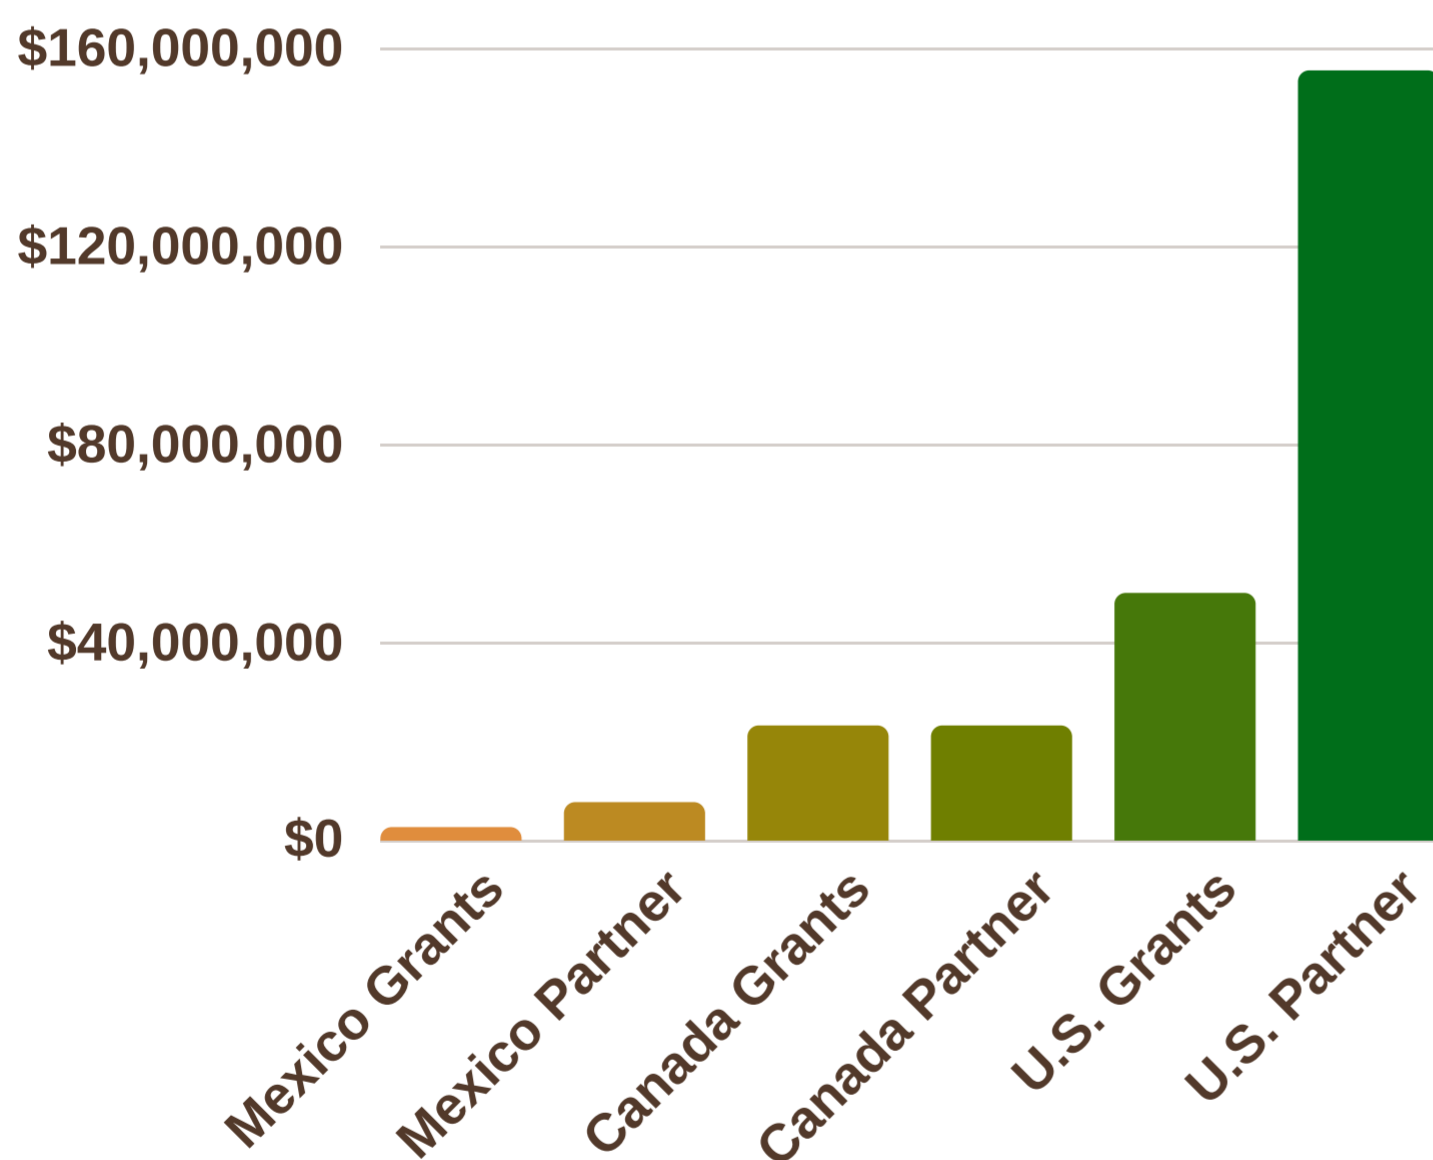

FY2018 NUMBERS

| | |
|-----------------------|---------------|
| GRANT FUNDING | \$75,979,867 |
| PARTNER CONTRIBUTION: | \$186,502,607 |
| TOTAL PROJECTS: | 101 |
| ACRES AFFECTED: | 454,191 |

In 2018, 101 projects were selected for funding across the continent- 84 in the U.S., 9 in Canada, and 8 in Mexico. NAWCA proposals totaling more than \$75.9 million will leverage \$186.5 million in contributions from partners in the FY19 recommended awards. In the history of the program, partners have included all 50 state wildlife agencies, hundreds of private landowners, a diversity of private conservation organizations, corporations, businesses, tribes and local governments.

FY2018 GRANT FUNDS

*figures from graph broken down below

Mexico Grants: \$2,729,547

Canada Grants: \$23,247,456

U.S. Grants: \$50,002,864

Mexico Partner Match: \$7,770,000

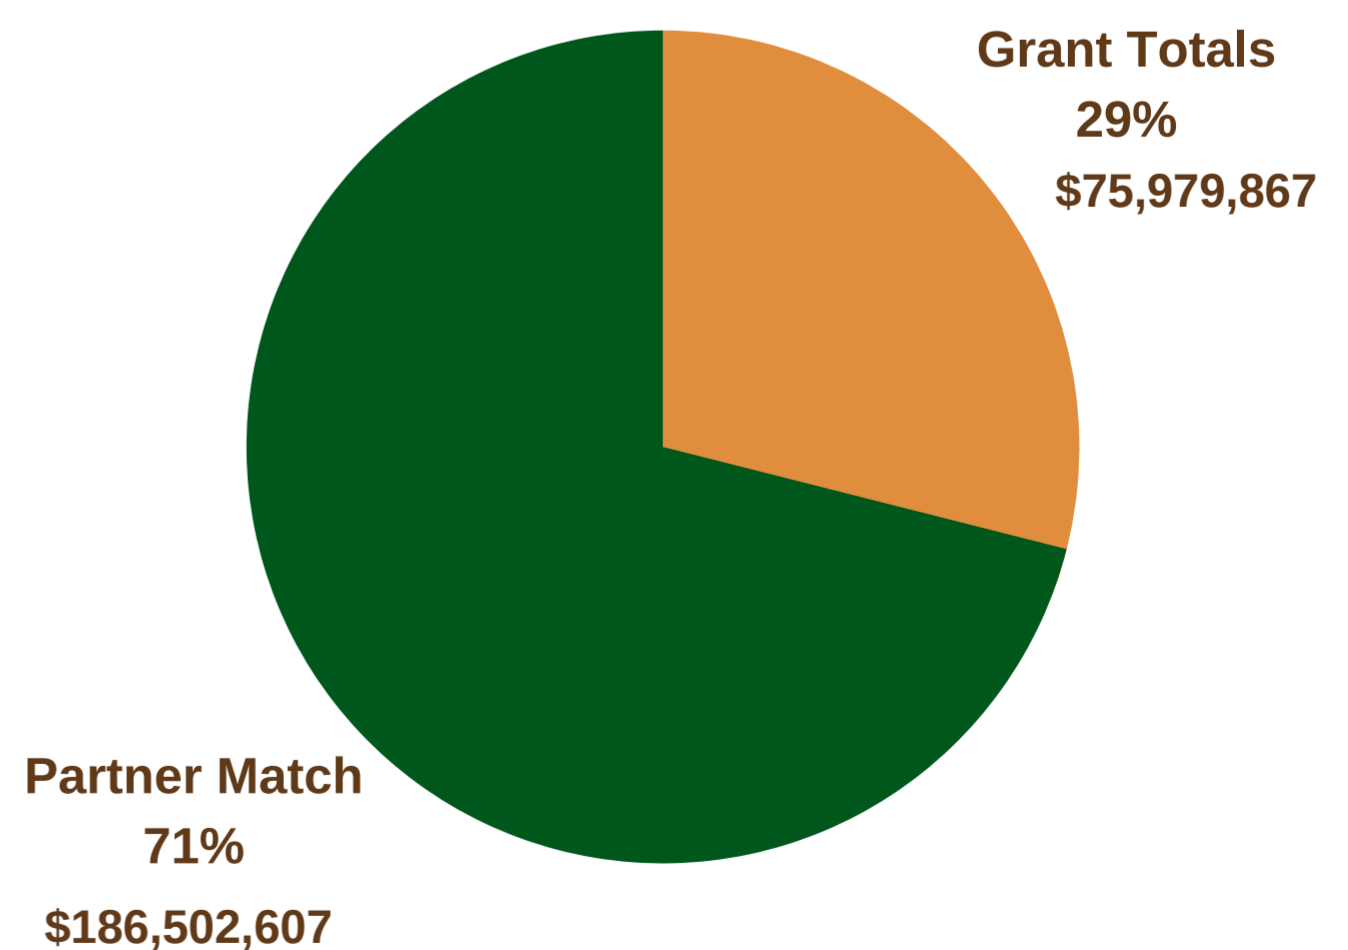

Canada Partner Match: \$23,247,458

U.S. Partner Match: \$155,485,149

MORE ABOUT NAWCA

- NAWCA is a voluntary, competitive grant-based program that has conserved habitat for nearly 30 years.
- Projects are approved by the Migratory Bird Conservation Commission (MBCC).
- The MBCC is made up of the Secretary of Agriculture, the Secretary of Interior, the head of the EPA, and two bi-partisan members from each the Senate and House of Representatives.
