\$36,412,300 **\$112,038,792** **104** **173,838**

NAWCA GRANT AMOUNT TOTAL PARTNER CONTRIBUTION NUMBER OF PROJECTS TOTAL ACRES

Wisconsin has 104 NAWCA projects either completed or underway. These projects have conserved 173,838 acres of wildlife habitat. NAWCA funding of over \$36.4 million stimulated partner contributions of more than \$112 million. These figures do not include multi-state projects.

MUKWONAGO - FOX RIVER FOCUS AREA II

Proposal objectives are to protect, restore, and enhance 2,435 acres of critical wetland, riparian habitat and adjacent uplands in the Mukwonago and Fox River watersheds. Conservation efforts will target crucial breeding and migration habitat for waterfowl, shorebirds, colonial waterbirds and migratory songbirds. The project goal is to protect 1,898 acres including 1,581 acres of wetlands and 317 acres of associated upland river frontage.

The project will restore 86 acres and enhance another 451 acres of wetlands and associated uplands. Protection, restoration and enhancement of these lands will benefit wetland and grassland species and include breeding habitat for multiple species of puddle ducks, foraging, nesting and migratory stopover habitat for many species of shorebirds, waterfowl and waterbirds. The project will provide potential breeding and migration habitat for endangered whooping cranes.
