\$127,835,748 **\$334,413,331** **194** **873,018**

NAWCA GRANT AMOUNT TOTAL PARTNER CONTRIBUTION NUMBER OF PROJECTS TOTAL ACRES

California has 194 NAWCA projects either completed or underway. These projects have conserved 873,018 acres of wildlife habitat. NAWCA funding of over \$127.8 million stimulated partner contributions of more than \$334.4 million. These figures do not include multi-state projects.

NORTHEASTERN CALIFORNIA WETLAND HABITAT V

The Southern Oregon and Northeastern California (SONEC) region is an area of continental significance to Pacific Flyway waterfowl (NAWMP 2012), and is identified by the Intermountain West Joint Venture (IWJV) as one of the highest priority landscapes in need of wetland conservation. The region encompasses some of the most diverse and dynamic habitat in the western U.S. Composed of lush valley traversed by snowmelt fed rivers, high plateau flood plains scattered with sagebrush, shallow terminal basins, wet meadows, and vast mosaics of flood irrigated agricultural working lands, each landscape represents critical habitat for wetland dependent wildlife. The project will restore 845 acres of palustrine emergent wetlands, 17 acres of palustrine forested habitats, and 86 acres of upland cover. Enhancements will provide improvements to 2,565 acres of palustrine emergent wetlands, 8 acres of palustrine forested habitats, and 226 acres of associated upland nesting cover. Projects will be contributing directly to IWJV habitat objectives by providing increased fall and spring staging, foraging, and breeding resources for waterbirds.

	PROJECT NAME	GRANT AMOUNT	PARTNER CONTRIBUTION	TOTAL INVESTMENT	TOTAL ACRES
1.	*BUTTE & COLUSA BASINS WETLANDS VII	\$1,165,893	\$2,485,454	\$3,651,347
