NUMBER OF PROJECTS

TOTAL ACRES

Iowa has 68 NAWCA projects either completed or underway. These projects have conserved 108,371 acres of wildlife habitat. NAWCA funding of more than \$36.3 million stimulated partner contributions of over \$93.5 million. These figures do not include multi-state projects.

IOWA DES MOINES LOBE WETLAND INITIATIVE II

This project is a conservation partnership aimed at protecting, restoring, and enhancing 2,049 acres of critical wetland and migratory bird habitat throughout Iowa's Prairie Pothole Region. This project continues to build on what has been a successful and long-term partnership between the USFWS Waterfowl Production Area program and NAWCA. Through this project, improving management of large prairie marshes will be a priority to benefit migrating birds, which will provide better nesting and brood-rearing habitats for the birds that breed in the area. Such bird species include Northern pintail, mallard, American black duck, lesser and greater scaup.
