NAWCA GRANT AMOUNT TOTAL PARTNER CONTRIBUTION NUMBER OF PROJECTS TOTAL ACRES

Minnesota has 173 NAWCA projects either completed or underway. These projects have conserved 209,408 acres of wildlife habitat. NAWCA funding of more than \$67.7 million stimulated partner contributions of over \$204.2 million. These figures do not include multi-state projects.

MINNESOTA NAWCA PROJECTS

BORDER PRAIRIE WETLANDS VIII

This project will accelerate the protection and enhancement of prairie wetlands and associated upland habitats to benefit wildlife in the Border Prairie region of the Prairie Potholes in Minnesota. Longstanding and new partners have come together to purchase, restore, and enhance 1,586 acres of habitat crucial to waterfowl and a whole suite of additional species. Fee-title acquisitions of Waterfowl Production Areas and Wildlife Management Areas focus on investments in habitat that build upon existing wetland complexes.

Wetland restoration and enhancement accomplishments will improve breeding and migratory waterfowl habitat. All habitat on lands acquired in fee-title will be restored using other funding sources and in collaboration with partners. Partners are working to add a wetland restoration biologist in the project area to assist with the added workload.
