

NORTH CAROLINA NAWCA PROJECTS

\$34,522,659 **\$101,001,590** **46** **144,406**

NAWCA GRANT AMOUNT TOTAL PARTNER CONTRIBUTION NUMBER OF PROJECTS TOTAL ACRES

North Carolina has 46 NAWCA projects either completed or underway. These projects have conserved 144,406 acres of wildlife habitat. NAWCA funding of more than \$34.5 million stimulated partner contributions of over \$101.3 million. These figures do not include multi-state projects.

EMBAYED RIVERS INITIATIVE V

This project represents the final NAWCA phase directed at the central and northeastern coast of North Carolina within the Embayed Rivers Initiative Focus Area.

The objectives of this project is to permanently conserve three target tracts: two fee title acquisitions, totaling 1,300 acres in Bertie and Hertford Counties; and one bargain sale conservation easement acquisition of 10 acres in Currituck County. Two match tracts are included in this project: the fee title acquisition of 350 acres in Craven County and the conservation easement donation of 10 acres in Pitt County.

The project will conserve estuarine wetlands, bottomland hardwoods, cypress-gum swamp, and pocosins that will benefit a diversity of priority bird species and which is directly supported by the Atlantic Coast Joint Venture's (ACJV) Waterfowl Implementation Plan and South Atlantic Migratory Bird Initiative (SAMBI). Two tracts consist of mature bottomland hardwoods and/or cypress-gum swamp along over three miles of the Chowan River hosting a diversity of overwintering ducks, along with excellent nesting habitat for Wood Duck. Another property in this project hosts estuarine wetlands along Currituck Sound, a premier waterfowl overwintering area within the Atlantic Flyway.
