

TEXAS NAWCA PROJECTS

\$75,568,184 **\$160,576,143** **121** **336,508**

NAWCA GRANT AMOUNT TOTAL PARTNER CONTRIBUTION NUMBER OF PROJECTS TOTAL ACRES

Texas has 121 NAWCA projects either completed or underway. These projects have conserved 336,508 acres of wildlife habitat. NAWCA funding of more than \$75.5 million stimulated partner contributions of over \$150.5 million. These figures do not include multi-state projects.

TEXAS RICE PRAIRIES II

This project will enhance or restore 2,643 acres of wetland habitat including, decreasing wetland types and other critical wetlands within the Texas portion of the Gulf Coast Joint Venture (GCJV).

This project will use grant and match funding to enhance 2,151 acres of privately-owned wetlands and will continue a 28-year partnership of landowners, state and federal agencies, and non-governmental organizations committed to the long-term support of wetlands conservation on the Texas Gulf Coast through the Texas Prairie Wetlands Project.

Project sites will be located within the agricultural landscape of the Texas Coast and will include palustrine wetland habitats with shallow flooded conditions, such as managed moist-soil, emergent wetlands and rice fields. A second tract, located in Wharton County, will include the enhancement of 84 acres of palustrine emergent wetland habitat within abandoned rice fields. A third tract, located in Refugio County, will include the enhancement of 408 acres of estuarine wetlands and upland habitat.
